Digital Citizenship Plan | 2026-2027

Sibylla Kiddle School

Digital citizenship is about using technology and participating in digital environments. It is key to helping our students learn to use available technology responsibly in the classroom and beyond. This Digital Citizenship Plan addresses how we work to build a community where we live and work together as digital citizens.

Relevant contextual information about our school and School Development Plan:

- K to 5 school with a diverse student population
- Literacy goal: *Student achievement in reading literacy will improve.*

Relevant evidence and data that informs our Digital Citizenship Plan:

- For students at Sibylla Kiddle School, digital technology is an important part of their school experience. Technology is used as a tool to create, gather and share information. The outcomes for student learning are connected to Digital Citizenship principles which are embedded in the appropriate curricular areas and during regular access to technology in the classroom environment.

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
Long term goal #1 Students will develop their understanding of when it is appropriate to access technology to support their learning.	**Balance** I understand appropriate times and situations to use technology.	**Short term goal #1** Teachers will explicitly teach the importance of accessing digital platforms at appropriate times for learning.	Students will learn when and when it is not appropriate to be accessing digital tools to support learning outcomes.	Possible incorporation of resources from the Digital Citizen Page on Insite.	All learners will have the knowledge to identify when and when it is not appropriate to access technology to support their learning at school.
Long term goal #2 Students will acquire the skills to access digital tools	**Involved** I leverage digital tools to learn, express my creativity and collaborate with others.	**Short term goal #1** Students will access the appropriate devices and tools to support learning.	Students will access devices such as Chromebooks and iPads to support learning and utilize technology.	Possible incorporation of resources from the Digital Citizen Page on Insite.	Students will be provided with regular access to devices such as Chromebooks and iPads.

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
to enhance and support their learning.		**Short term goal #2** Staff will teach students how to login into technology, how to access various websites and apps, and model how to use various inclusive technology tools (such as speech to text and text to speech) to support student literacy development.	Staff ensure students know how to login to school devices and how to use inclusive technology to effectively complete literacy tasks. Teachers will explicitly introduce new apps and websites that are being used to support student learning.	Possible incorporation of resources from the Digital Citizen Page on Insite. Some teachers may benefit from professional learning opportunities focused on inclusive learning tools such as speech to text and text to speech.	All students will know how to login into necessary devices and websites to support reading and writing tasks. Students will learn how to utilize inclusive technology to further enhance their literacy skills.

Next Steps and Focuses for the Coming School Year

- To be determined by feedback from all key players (students, staff, and parents)
